Status of the Claims

The response filed originally on 20 May 2002 has been received and entered. Claims 36-44 have been presented for examination.

The examiner in charge of your application in the USPTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to the new examiner.

Claim Rejections - 35 USC § 102/103

The rejection under these statutes in the Office action of 20 February 2002 is withdrawn. Martin et al. (US 6,083,729) is not prior art under 102(b) or 102(e). Priority to this document was claimed.

Election/Restrictions

Claims 39-40 remain **finally** withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 6, filed 05 December 2001.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Art Unit: 1651

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 36-38 and 41-44 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-35 generally of U.S. Patent No. 6,083,729. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant claims do not provide for removing oil explicitly, but just recite separating. It would be obvious that the separating step includes oil extraction especially in view of claim 8, steps d and e of the patent (compare to instant claim 36).

No claims are allowed.
